Carly Glover **IT business manager, Mears Group**

Carly originally joined Mears Group in January 2014 as a business analyst, having previously worked in operational and IT positions within the social housing sector for a local authority and housing association prior. With a passion for people and utilising data to improve services, Carly works as an IT business manager, delivering projects within the remit of digital transformation and service improvement on a national basis. As a member of CIH, Carly retains her links to the wider housing sector and ensures the Mears approach is reflective of wider sector best practice and improvements.
