Delivering the qualification

Approval to deliver the qualification

CIH AO centres must be approved by CIH AO to deliver the qualification. Delivery must not commence, and learner registrations will not be accepted until this process is complete.

Registering learners and fees

Prior to the delivery of the qualification, you must register each learner with CIH AO. A fee is payable for each learner. The list of fees is available on our website at the following link: www.cih.org/education/qualifications/deliver-our-qualifications. For more information on terms of payment please refer to our invoicing policy.

Equality diversity and inclusion

Equality diversity and inclusion (ED&I) considerations were made during the development of this qualification to promote access and minimise bias. It is the centre's responsibility to ensure that ED&I considerations are made as part of the delivery and assessment of this qualification.

CIH AO expect ED&I to be integrated into the delivery process for every learning outcome even where there are no specific assessment criteria for ED&I.

Contextualisation of learning outcomes and assessment criteria

Centres must contextualise the delivery and assessment of units according to the local and sectoral circumstances of the group of learners they are delivering to (e.g. teaching and assessment of law is applied to the law of the country in which the group of learners operate).

Staff occupational competency requirements

Assessments for CIH qualifications are designed (subject to review) and implemented by approved centre staff. It is the responsibility of the approved centre to establish and maintain a suitably experienced and qualified staffing base.

While there is an expectation that, in most cases, staff are equipped with the experience and qualifications indicative of their role, a degree of flexibility can be permitted where the centre can demonstrate the requirements across the staffing base more broadly, indicating that sufficient support and oversight can be applied as needed. This approach may be implemented where staff are studying towards additional qualifications.

Sector Experience Requirements (all staff roles)

All centre staff roles (Tutor, Assessor, IQA) must satisfy at least one of the following requirements:

- A recognised Housing, or Housing-related qualification at level 3 or above, or;
- Enrolment and completion of a recognised Housing or Housing-related qualification at level 3 or above within an agreed time period, or;
- Minimum 2-years' experience of working in a Housing or Housing-related organisation at Officer-level or above, or;

Trainee staff

Trainee Tutors, Assessors and IQAs must complete a relevant qualification within one year of commencing in the role. Any trainee staff should be subject to increased internal sampling and supervision until the role requirements are fully satisfied.

Continued Professional Development

All centre staff must keep an ongoing accurate record of any CPD activities in the Housing or Housing-related sector, as well as any activity relating to assessment and IQA. Records of CPD activities may be requested at any time.

Assessment

Centres must refer to the CIH AO centre handbook prior to developing their courses and associated assessments.

The purpose of assessment is to provide a consistent and valid judgement that learners have met the standard required to achieve the qualification. The assessment criteria contained in each unit indicate the evidence learners will need to produce to demonstrate that they have achieved the learning outcomes.

All assessment for the qualification is devised by the centre, marked by the centre and then must be internally quality assured by the centre, and externally quality assured (by the CIH AO).

Centre devised assessments

CIH AO's approach to the assessment of qualifications is to enable centres to devise the assessments. This is to allow for appropriate assessment that reflects the unique learning experience and local circumstances of specific groups of learners.

Centres are expected to create assessment strategies that directly meet the needs of their learner groups and consider the requirements of local employers.

Assessment principles

In devising and delivering assessments the following principles must be followed.

Validity

An assessment is valid if it is clear and unambiguous 'does what it says on the tin', if it is fit for purpose, and the assessment outcomes meet their intended uses.

Reliability

An assessment is reliable if its results are not influenced by chance, and the assessment process generates outcomes which would be replicated were the assessment repeated.

Comparability

The assessment outcomes are comparable in standards between assessments within a qualification, between similar qualifications, with other awarding organisations, and over time.

Manageability

The assessment is easily managed, and the management process is one which places reasonable demands on centres and learners. Reasonableness will be based on the scale of the assessment process balanced by the usefulness of the outcomes.

Minimise bias

An assessment does not produce unreasonably adverse outcomes for learners who share a common attribute (and) is related to fairness to all learners and statutory equality duties.

Assessment methods

CIH AO encourage the use of a range of assessment methods to be included in your assessment strategy and associated assessment briefs, providing that they meet the assessment principles outlined above, and are appropriate to the assessment criteria. Suitable assessment methods could include:

- Coursework
- Portfolio of evidence
- Task based assessments
- E-assessment
- Demonstration/ assignment
- Professional discussion or interview
- Presentation.

Guidance on the use of assessment methods can be found in the centre handbook. If you have additional or innovative assessment methods that you would like to employ, please contact us for further advice.

Special considerations and reasonable adjustments

CIH AO requires centres to be compliant with the CIH AO special considerations and reasonable adjustments policy. A reasonable adjustment is any action that helps to reduce the effect of a disability or difficulty that places the learner at a substantial disadvantage in the assessment situation. Reasonable adjustments must not affect the reliability and validity of the assessment outcomes. The centre is required to implement the adjustments to assessment and to notify CIH AO of this.

A special consideration may be given to a learner following a scheduled assessment, e.g.:

- if the learner misses part of the assessment due to circumstances beyond their control
Or
- the learner is present for the assessment but may have been disadvantaged by:
 - Temporary illness
 - Injury
 - Adverse circumstances which arose at or near the time of assessment.

If the centre approves/rejects a special consideration (such as a small post assessment adjustment to the mark of the learner or an adjustment to the assessment submission date) it must retain evidence of its decision for scrutiny by the CIH AO.

External quality assurance

As an Awarding Organisation, CIH must ensure that all programme delivery, assessment, and Internal Quality Assurance (IQA) practices undertaken by approved Centres is subject to external scrutiny to verify that reliable, consistent and compliant practices are in place.

All approved CIH centres are subject to a range of External Quality Assurance (EQA) processes and procedures, including an annual quality assurance audit, ongoing assessment sampling, and regular review of the conditions of Centre Approval.

CIH's EQA strategy is designed to be responsive to centre-risk characteristics, and to variations in centre delivery models and qualification size and level.

Specific details about how EQA processes are applied to each centre will be communicated by the CIH Quality Assurance Team.

For further information, please consult the CIH Centre Handbook or contact the QA Team at the following address: quality.assurance@cih.org
